## Why We Recommend The Complete Protection Program

All of our treatments are designed to complement each other. To achieve maximum protection for your investment we suggest you take advantage of our Complete Protection Program.

## Enhance Caravan Resale

A completely treated caravan will always attract a better resale price down the track. By protecting the entire caravan and not just parts of it, you can rest assured that the next owner will be attracted to your vehicle because of its upkeep and condition.

## Save You Time

Say goodbye to waxing and polishing and spending endless hours cleaning your caravan. The sole purpose of the Complete Protection Program is to save you time, which in turn saves you money.

## Lifetime Warranty

There is peace of mind knowing that your caravan is protected with a once off application and annual inspections. The inspections are carried out at your dealership for complete caravan protection, maintenance and upkeep.

## Substantial Cost Savings On Packages

Talk to your dealership consultant about how you can achieve significant cost savings by purchasing packages specifically designed for your carava

## Why Wait?

To maintain the best result from your program, the treatment needs to be applied before your caravan leaves the dealership. This will ensure your caravan is completely treated against and nasty elements or accidental spillages that can happen as soon as you leave the dealership.

## Fabric Protection

Your fabric and upholstery are at the mercy of people, children, pets, food and drinks. Accidents happen. So why worry about them when you can be assured that any spills or marks can easily be removed.

- ✔ Treat and protect your carpets and fabric from staining
- ✔ Ideal for families and pets
- ✔ Non-toxic and odourless
- ✔ Repels liquid, dirt, food and perspiration
- ✔ Protects against grease and grime

## Leather/Vinyl Protection

Leather and vinyl are most prone to the effects of the sun, especially your interior. Without proper protection they can easily dry out, crack and fade. Looks deteriorate quite quickly.

- ✔ Water repellent and anti-static
- ✔ Low sheen, non-greasy and non-stick
- ✔ Conditions to prevent hardening and cracking
- ✔ UV protection against fading and discolouration

## Ceramic Paint Protection

Ozone Shield provides protection from the elements giving your paintwork a long lasting gloss and outstanding shine as well as a smoother surface helping to reduce the build-up of dirt and grime. This means less washing and better maintenance of your caravan.

- ✔ Providing effective, long lasting protection from UV rays, guaranteeing against
  - Fading • Loss of Gloss • Oxidisation
- ✔ Eliminate time consuming waxing and polishing
- ✔ Slows the process of acid eating into the paintwork

## Nano Ceramic Protection

Our Nano Ceramic Paint Protection is a high gloss coating that forms a permanent adhesion to the paintwork, much like an additional layer of clear coat, only stronger. Our Nano Ceramic Paint Protection can only be removed by abrasion. This makes it the highly durable choice in protection. Amazingly, this coating is 4-5 microns thick, and will protect the colour of your beautiful paintwork.

## How Does It Work?

Compared to Factory Paintwork, Nano Ceramic Paint Protection uses the latest nanotechnology to give your paintwork 9H Hardness and superior UV, Thermal and Chemical resistance. It will guard your vehicle from damaging environmental contaminants and harsh chemicals that would otherwise compromise the factory clear coat.

Your paint surface will become hydrophobic with our Ceramic Protection. This will make it far easier to clean and will keep it cleaner for longer.

- ✔ Protects paintwork with a 9H Hardness layer that is UV, Thermal and Chemical Resistant.
- ✔ Protects against bird and bat droppings, tree sap, and other tough to clean contaminants.
- ✔ Gives your paintwork a beautiful shiny finish, that will make your paint stay beautiful for longer.
- ✔ Hydrophobic effect, keeping your car cleaner for longer.
